

Act of Faith, Inc. is a nonprofit corporation born in Hendricks County, Indiana, that provides financial assistance to families struggling with cancer and other terminal illnesses. There are so many families all around us, even in your own neighborhood, that need help.

Most people in this situation will eventually lose their jobs, then their insurance, only to be left with nothing. No hope. Act of Faith brings a renewed hope and faith to these families in the form of financial assistance. We will pay monthly and/or medical expenses up to an allocated amount set aside specifically for that family. In one case, we were able to pay the cobra insurance, which covered all medical expenses up until that person lost his battle. But otherwise, the family left behind would have lost everything due to unpaid medical bills. Unfortunately, our government makes you wait five months before you can receive disability (if you are classified as terminal) and even longer to receive social security benefits.

We are currently seeking corporate sponsorships and partnerships to supplement our funding as the need for assistance becomes greater everyday. Act of Faith, Inc. is a 501(c)(3) tax exempt non profit corporation registered with Internal Revenue Service.

In the past, most of our funds have been raised by two major annual fundraising events: the Car, Truck, and Bike Show, and our Charity Hog Roast. With more and more people contacting us on a daily basis, these funds diminish rapidly and we are often left with an empty bank account. Since we never turn anyone in need away, we must seek out new resources and hold special events to benefit those in need. Needless to say, this is a very exhausting and tiring cycle.

Please join us this year so that many more people can receive much needed assistance. These families should not have to worry about losing their homes, their cars, insurance, and/or having the power shut off at a time like this.

Many people have asked why we do this, and the answer is very simple: a beloved member of our family went through a very devastating terminal illness that left her nearly destitute. Someone she did not know stepped in and paid \$1,000.00 of her monthly bills. She was overwhelmed by this unexpected display of kindness and could not understand why a group of strangers would do this for her.

Today, she is gone. But, we carry on and work hard to do the same for others as they did for her. And each time we are able to help someone in need, we are honoring not only the memory **of** our beloved family member, but we are also honoring the selfless actions of those who selflessly came to her aid.

Thank you for your time and consideration. We would love to sit down with you and discuss all opportunities in person.

Act of Faith, Inc.
